### Profile Summary

I'm a front-end developer with a passion for developing and delivering projects that exceed client expectations. I use my creativity to showcase my knowledge of web development and with my attention to detail and enthusiasm, I create responsive and accessible websites.

### Featured Projects

#### Food Barn – [View Live](#) – React | REST | CSS3 | HTML5

Browse the greatest restaurants in the world, city by city.

- React, Axios and the Zomato API are used to display restaurant details, such as ratings, location, menu and a featured image.
- The user can sort restaurants between different categories and price ranges and find the restaurant in google maps.

#### Hangman – [View Live](#) – JQuery | JavaScript | SASS | HTML5

The classic game to test your word knowledge.

- JQuery based app that uses a list of words to display a game to the user on their browser.
- The user can guess a letter until they win, or each mistake is counted until they lose. CSS animations are used to create a playful experience.

### Experience

#### Customer Experience Specialist

*Knowledge First Financial | Toronto | March 2019– August 2019*

- Trained 10 new hires to improve call timing, resulting in 30% increased phone coverage for call timing.
- Acknowledged and rewarded for handling 40+ webchats and 70+ emails per day, far exceeding expected volumes, while still ensuring great customer satisfaction.

#### Management Assistant

*Berger Jenson & Nicholson | Kathmandu | February 2018 – July 2018*

- Planned major marketing campaign to promote products in international platform which reached over a million people.
- Received award for planning and executing company's marketing project that saved 15% of project budget.
